ONE EARTH EXCAVATIONS PTY LTD

COMPANY OVERVIEW

One Earth Excavations Pty Ltd is a Tasmanian-owned civil construction and earthmoving company, proudly led by Director Case Streets since 2019.

Based in the West Tamar, we service clients across Tasmania, delivering reliable, high-quality civil and earthworks solutions.

The One Earth team is experienced in all aspects of earthmoving and civil construction projects, with the capability to manage works of varying size, complexity, and scope.

With a strong focus on safety, quality workmanship, and environmental responsibility, One Earth Excavations is committed to supporting local communities and contributing to sustainable infrastructure outcomes.

CORE CAPABILITIES

- ➔ **Civil Construction**
- ➔ **Bulk Excavation & Earthmoving**
- ➔ **Excavation & Grading**
- ➔ **Land Clearing & Site Preparation**
- ➔ **Drainage & Erosion Control**
- ➔ **Poly Pipe Welding & Pipe Laying**
- ➔ **Vegetation & Land Management**

PLANT & MACHINERY

One Earth Excavations Pty Ltd maintains a modern and well-maintained fleet of plant and equipment, allowing us to deliver safe, efficient, and cost-effective outcomes across a wide range of civil and earthmoving projects.

All machinery is regularly serviced and maintained in accordance with manufacturer requirements and WHS standards.

Excavators

(various sizes)
1.8 ton – 45 ton
and attachments.

Tracked Dozers

d6 and d8 and
wheeled plant.

Heavy Haulage

including trucks and
trailers.

Loaders

Utes and Support Vehicles

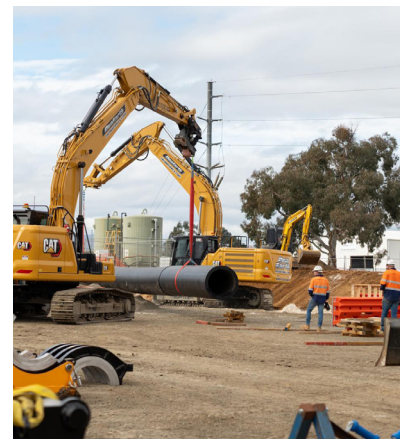

Compaction Equipment

Poly Welding Equipment

and specialised
attachments

Poly Pipe Welding & Pipe Laying

One Earth Excavations has a dedicated in-house team for high-density polyethylene (HDPE) plastic welding, offering robust and reliable solutions for a wide range of civil engineering projects. One Earth Excavations provides high-quality welding services that meet stringent industry standards. HDPE welding can be performed using different techniques depending on the specific application, including butt welding from 180mm – 1200m in diameter and electrofusion welding comprehensive testing and quality assurance processes.

GPS & Machine Control Capability

One Earth Excavations operates Caterpillar plant equipped with integrated GPS machine control technology. This system allows for accurate set-out, precise grading, and efficient earthworks delivery, reducing rework and improving productivity. Our GPS-enabled Cat machines ensure works are completed to design tolerances while maintaining high safety and quality standards.

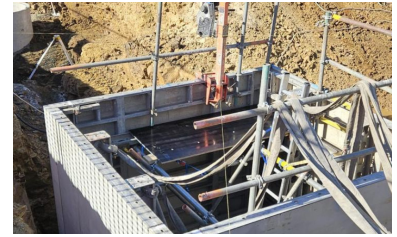

KEY PROJECTS

Burnie Trunk Main Renewal

Beauty Point Foreshore
Seawall Restoration

Swansea East Coast
Pump Station

Margaret Street
Pump Station

Launceston Sewer Treatment
Storage Tank Earthworks and
Pile Cropping

INSURANCE & COMPLIANCE

One Earth Excavations Pty Ltd holds all appropriate and current insurances required to undertake civil construction and earthmoving works. Insurance coverage includes:

- Public Liability Insurance
- Workers Compensation Insurance

Evidence of currency can be provided upon request. All works are carried out in compliance with relevant WHS legislation, codes of practice, and client requirements. We use the ASSA occupational health and safety Management system
